Superintendent Schwall updated the Board on field operations; The crew is currently repairing gates and other structures that have been in need of repair for some time. Our biggest concern for now is the homeless camps. Superintendent Schwall stated that he is concerned for the safety of the employees. Homeless camps continue to pop up throughout our system and the homeless are becoming more and more aggressive. Many have dogs that may or may not be on a leash. The crew also continues to be around feces and used hypodermic needles on a regular basis. The homeless issue in regard to the safety of our employees needs to be further discussed and hopefully we can work closer with the police department and City Government to alleviate this threat to employees.

WSAFCA Project has continued to have minimal activity. A variance has been approved by the CVFPB to begin work prior to the end of the flood season on April 14.

There being nothing further, the meeting was adjourned to April 12, 2018.
